

DATE: _____ CLIENT NAME _____ E-mail address _____

PET NAME _____ Dog ___ Cat ___ Age _____ Sex _____

VACCINATIONS:

1. Written proof of a current **rabies vaccination** is required for all surgical patients.

I have written proof of rabies vaccination ___ Rabies vaccination (\$12) needed today _____

2. Written proof of a current **distemper combo vaccination** is required for all surgical patients. _____

I have proof of a distemper combo vaccination ___ Distemper combo vaccination (\$20) needed today _____

DOGS ONLY:

1. I understand that **kennel cough vaccinations** are recommended for **dogs**.

I do want a kennel cough vaccination (\$20) today _____

I do not want a kennel cough vaccination today _____

2. I understand that annual **heartworm testing** is strongly recommended for **dogs** more than 6 months of age because heartworms are potentially fatal to dogs.

I do want my dog tested for heartworms (\$20) today _____

I do not want my dog tested for heartworms today _____

NOTE: Heartworm preventative may only be purchased if your dog is tested today or if you have written proof that he/she has been tested during the past 12 months. The price of heartworm preventative depends on how much the dog weighs.

3. Fix-A-Pet **strongly recommends** that dog owners purchase inexpensive (\$5 - \$15 depending on the dog's weight) tranquilizers to be given to dogs for 6 days after surgery to prevent too much activity and licking of the incision site. Dogs must have activity severely restricted for at least 6-7 days after surgery. We also have Bitter Apple spray (\$5) and Elizabethan collars (looks like a lamp shade) available. Fix-A-Pet will not be responsible for complications arising after surgery if these complications are due to licking of the incision or too much activity.

I do wish to purchase an item(s) mentioned above _____ I do not wish to purchase any item _____

CATS ONLY:

1. I understand that it is recommended that **all cats** be tested for the **feline leukemia and feline lenti viruses** because these are contagious and potentially fatal viruses.

I do want my cat tested for both feline viruses today (\$22) _____

I do not want my cat tested for both viruses today _____

See other side of page

2. I understand that **feline leukemia vaccinations** are strongly recommended for **outdoor cats** to protect them from this contagious and potentially fatal virus. The first year this vaccine is administered, the cat should receive an initial vaccination and then a booster 3 weeks later. After that, only an annual booster is needed. (This vaccination will not be administered unless a test is run to check for the virus first. See previous question.)

I do want a feline leukemia vaccination (\$20) today _____

I do not want a feline leukemia vaccination today _____

DOGS AND CATS

1. Fecal samples may be checked to see if dogs or cats have intestinal parasites (**worms such as roundworms, hookworms, whipworms, tapeworms etc.**) **There is no over the counter wormer which is effective against all of these parasites.**

I do want a fecal sample checked (\$12) for my pet _____

I do not want a fecal sample checked for my pet _____

2. Worm medication may be dispensed without a fecal sample being run first. Price depends on whether the pet is a dog or a cat and how much it weighs. **There is no over the counter wormer which is effective against all of the parasites listed above.**

I do want worm medication for my pet ____ I do not want worm medication for my pet _____

3. **Microchipping** is the only permanent form of pet identification. A microchip is about the size of a grain of rice and is inserted under the skin between the shoulder blades. If your animal is lost or stolen, all animal shelters can check for microchips as can most veterinarians. The cost for microchipping and lifetime registration at Fix-A-Pet is only **\$30**. (The average cost at a veterinary clinic is about \$50.)

I do want my pet microchipped (\$30) ____ I do not want my pet microchipped _____

I do want my pet's nails trimmed today (\$4) ____ I do not want my pet's nails trimmed. _____

Please check here if you wish to purchase Heartworm preventative _____

Please check here if you wish to purchase flea and/or tick control _____

By signing below, I authorize FIX-A-PET to alter my pet and perform other services as noted above. I understand the risks associated with anesthesia. I understand that FIX-A-PET may be tattooing my pet's belly with the universal spay/neuter tattoo. I understand that if my pet has had exposure to food/water after 9:00 p.m. last night, the outcome could be fatal. I understand that should any complications arise during or after surgery, I may be charged additional fees. I also understand that if my **dog** is in heat, there will be an additional \$25 charge and pregnancy fees begin at \$25. **Cat** pregnancy fees are \$25. I understand I am to pick up my pet by 5:30 p.m. unless notified otherwise and that if I am late, there is a **\$40** late fee.
